Company: Trico Electric Cooperative, Inc. Division: Electric

Nature Of Opinion

Docket Number: E-01461A-15-0363

Docket Position: Against

I am against the monthly fixed charge increasing. There is no reason that it needs to go from \$15 (plus tax) to \$24 (plus tax). It just shows Trico as being greedy and gouging customers that have no where else to get power. I put solar on my house two years ago because I was sick and tired of how much GOUGING Trico does in comparison to TEP. I have talked to several of my TEP friends with similar house make/model/size and the highest they ever had to pay for electric was about \$200 in the summer. Before I got solar, my summer bill was around \$400. Absolutely ridiculous. I am conscientious about electricity and keep the house at a temperature of 83 degrees in the summer. There is NO REASON my electric bill needed to be that high. So, I got solar and now all I pay is the fixed monthly charge. As another example, the shade trees that Trico sells are \$15. TEP's trees are \$8. They come from the same nursery. Why on earth are Trico's trees twice as much as TEP's? Oh, gouging, right. Trico should be ashamed of themselves.
